

What The Film

CMPS115 - Spring '16

What the Team!

Meli Jimenez - Product Owner

Damon Chadic

Joshua Wallace - Initial Scrum Master

Julio Franco

A cross-platform (web & iOS) movie streaming for low budget
and student films.

Sprints

Sprint 1:

1. As a user, I want to be able to click on a movie cover so that I can watch a film
- 20 Story Pts
2. As a user, I want to be able to use a grid of movie covers to find the film I want to watch - 5 Story Pts

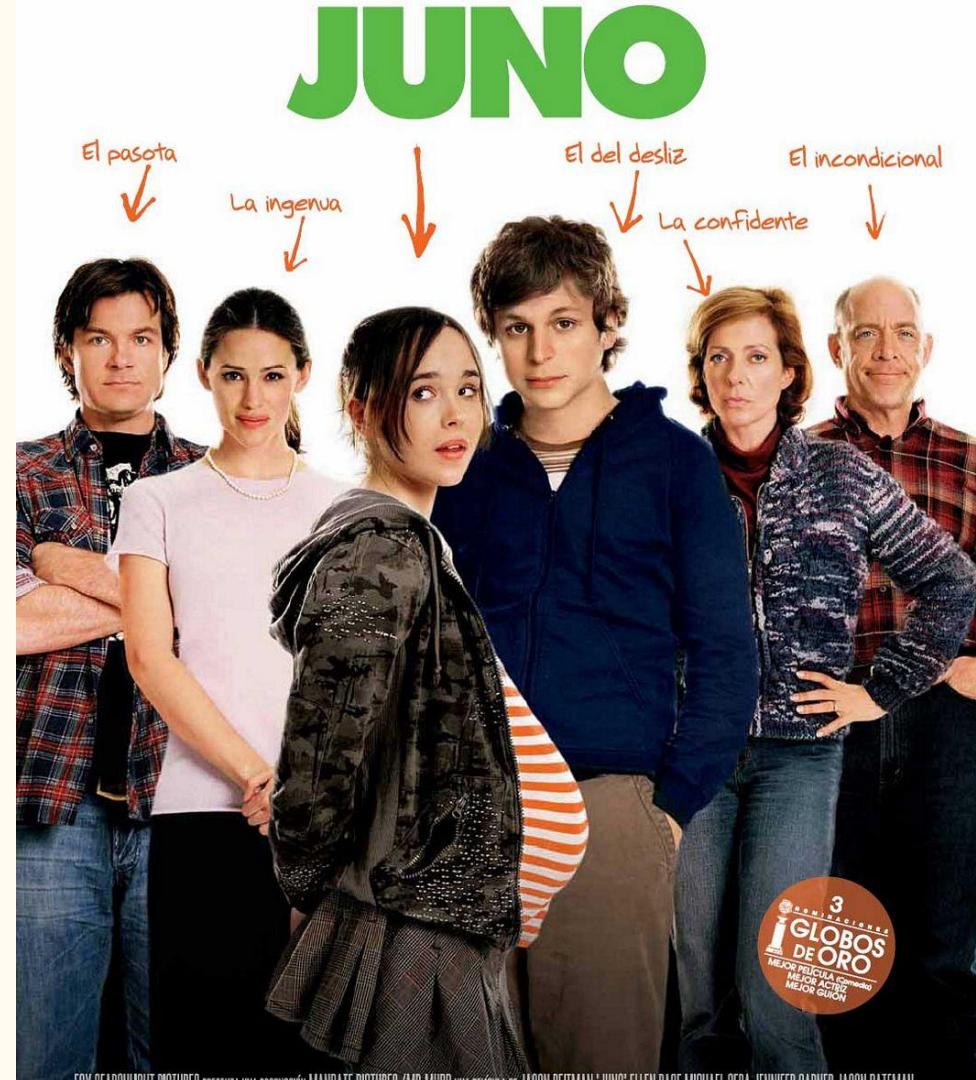

Sprint 2:

3. As a user, I want to be able to find films by categories - 8 Story Pts
4. As a user, I want to be able to search movies by titles - 15 Story Pts
5. As a user, I want the films to be organized neat and aesthetically so that I can like and trust the website - 15 Story Pts

Sprints

Sprint 3:

6. As a user, I want to be able to log in to my account to keep track of the films I've watched - 10 Story Pts
7. As a user, I want to be able to read/write reviews to discern which movies are worthwhile - 15 Story Pts
8. As a user, I want to be able to return to the movie where I left off so that I don't have to seek forward each time - 10 Story Pts

Technologies

- Amazon Web Services
- Ruby on Rails
- JavaScript/JQuery
- HTML/CSS (or Jade/SASS)
- Swift/Xcode
- Git
- Slack/Asana

Challenges

- Video streaming is tough
- Getting rights for movies
- File storage/costs
